

Our one-for-one commitment means that when a student signs up, we give a place to someone less fortunate. So, they're not only improving their own life, but someone else's too.

One week
of studies at
Bayswater

=

One week of
studies to
someone less
fortunate

What we do

We donate time, expertise and money to students and charities to provide them with life-changing education.

Why we do it

Education should be available to anyone, whether they can afford it or not. We want to inspire the next generation of explorers, wherever they are.

How we do it

We team up with organisations that share our mission and donate a week of classes for every week a student study with us.

Report September 2022

In July 2022 we opened an application process to select new projects and expand our impact. We received applications from 55 charities coming from 30 different countries including Japan, Thailand, Ukraine, France, Germany, Greece, Cyprus, Lebanon, Jordan, Palestine, Saudi Arabia, Egypt, Morocco, Peru, Colombia and Brazil.

Meet Saray

Saray is the youngest of her three siblings and the only one in her family that learns English.

Saray comes from a background of surviving violence and poverty. Her family was forcibly removed from their home, Dadeiba, by paramilitaries, and moved to Medellín to start a new life.

With the help of Fundación Caminos, Saray is learning English and dreaming about having a better future for herself and providing better life conditions for her family.

“Saray is tender, humble, loving, and she helps her friends. She’s a very good student, she can already read and write.”— says Saray’s English teacher.

RefuAid

Thanks to our students, team & partners.

We are only able to change the lives of less fortunate students due to your support.
